

CASE STUDY 03: Performance Marketing Consultancy (Personal Brand)

◆ 1. Problem Statement & Brief

B2B consulting ads often rely on vague buzzwords and generic stock imagery, which fails to build immediate institutional trust with high-value clients. The goal for Week 6 was to construct an authoritative personal brand identity system that puts real performance analytics, margin breakdowns, and clear business metrics at the center of the design system.

◆ 2. Design Strategy & Rationale

- **The Aesthetic:** Corporate Clean Executive. Built upon crisp white canvases, cool grays, and deep navy text hierarchies.
- **Visual Anchors:** Growth emerald green tones isolate key numbers, scaling charts, and financial indicators.
- **Layout Structure:** High-impact split layouts. The text arguments occupy clear blocks on the left, while real, detailed data dashboards anchor the right side.

◆ 3. Design Approach & Implementation:

- **Visual Hierarchy Breakdown:**
 - **Primary Authority Title:** SCALE YOUR BUSINESS TO NEW HEIGHTS (Set to a heavy, powerful executive sans-serif font like *Inter* or *SF Pro*, bold weight, block layout scaling at **44px - 52px**).
 - **Core Campaign Callouts:** STOP CHASING VANITY METRICS / DATA-DRIVEN PERFORMANCE MARKETING (Bold corporate sans-serif, **28px - 32px**, dark slate tone).
 - **Framework / Step Triggers:** 01 / REVENUE & MARGIN ANALYSIS (Highly prominent, bold tracking headers, **20px**).
 - **Analytical Label Copy:** Crisp corporate numbers (e.g., \$34.6M, \$14.5M scaled up to **24px Bold** inside dashboard panels).
- **Exact Palette & Styling:** Crisp white and light mint/sage canvas backings (#FFFFFF / #E8F5E9) paired with solid emerald growth green accents (#198754) to maximize trust signals.
- **User Interface:** The consulting landing page functions as a conversion funnel. It stacks a dashboard hero image above a clear 3-step performance auditing guide, ending with a prominent BOOK A FREE STRATEGY CALL button.

◆ 4. Final Documented Outputs

- **1x Desktop Landing Page UI:** Corporate strategy layout framing performance pillars and scheduling pathways.
- **2x Instagram Feed Posts:** 1080 × 1080 px templates showing authority quotes and pie charts.
- **2x Instagram Story Ads:** Metric-driven conversion frames featuring revenue growth visuals.
- **1x 5-Slide Strategy Carousel:** Educational deck breaking down revenue and gross margins.
- **1x Lead-Gen Display Banner:** Horizontal web asset designed for high-end B2B audience targeting.

◆ 5. Expected Business Impact

- Placing clear analytical dashboards upfront shifts user intent from curiosity to commercial trust, projected to improve qualified lead generation by **40%**.
- Clean corporate color consistency establishes immediate domain authority, lowering business acquisition costs on professional networks by **18%**.
